

INDONESIA ENERGY TRANSITION DIALOGUE 2024

04-06 NOVEMBER 2024

An Event Proposal

Enabling Rapid Power Sector

The Seventh

INDONESIA ENERGY TRANSITION DIALOGUE

To:

IETD plays a crucial role as a hub for information and tactics promoting a more sustainable and renewable future. This year's focus on Refining Indonesia's Just & Orderly Energy Transition, the dialogue will bring in a range of knowledgeable and experienced individuals to provide their perspectives on the obstacles and opportunities facing Indonesia as it prepares for the energy transition. Navigating newfound risks and complexities as global technology, politics and economics evolve is important in seeing Indonesia's readiness to face the challenges of the energy transition. Obviously, if sustainable industrial growth, ecological resilience, and community welfare are given top priority during the energy transition, Indonesia can be empowered from the middle-income trap.

Prof. Bambang Brodjonegoro, Ph.D

Chairman of ICEF

This year, the seventh IETD will discuss in depth the strategy for orderly energy transformation. Through the yearly event of IETD, we aim to bolster the framework of the energy transition, including assessing the vision of Indonesia Leadership 2024 - 2029 on achieving climate ambition and sustainable economic development. Encouraging diverse stakeholders has both opportunities and problems, but it's imperative that we choose the right path and leave no one behind. Cooperation amongst many stakeholders, ranging from the commercial sector to the national and local governments, as well as facilitate and promote the energy transition discourse to build a systematic approach in ensuring a smooth transition for the country.

Fabby Tumiwa

Executive Director of ICEF

1st IETD 2018

Energizing Energy Transition in Indonesia's Power Sectors

- Establishment of Indonesia Clean Energy Forum
- Inaugurated by Ministry of Energy and Mineral Resources
- 60 attendees (invited participants only)

2nd IETD 2019

Reinforce and facilitate the energy transition discourse in Indonesia

- 40 prominent speakers and
- 200+ participants from related energy stakeholders
- 50+ media coverages

3rd IETD 2020

Turning Vision into Reality: Strategies to Decarbonize Indonesia's Energy System

- fully virtual event
- 690+ online participants
- 70+ media coverages

4th IETD 2021

Reaching Deep Decarbonization by 2050: set the target, mobilize action, and achieve zero emission

- 27 prominent international & national speakers
- 200+ participants attended
- 87+ coverages in the news

5th IETD 2022

Reaching Indonesia's Net Zero Energy System - Unite for Action and Strategy

- In collaboration with Indonesia Sustainable Energy Week
- 30+ prominent national and international speaker
- 500 participants
- 86+ coverages in the news

6th IETD 2023

Enabling Rapid Power Sector Transformation Targeted

- 49 national and international speakers
- 1229 participants
- 98 coverages in the news
- 8 recommendation for Indonesia policy makers
- 2 collaborators (PT. Pertamina NRE, PT. Jateng Petro Energi)

7th IETD 2024

Delivering Just and Orderly Energy Transition

- 50 prominent national and international speakers
- 3 days offline event (4-6 November 2024) 500 participants
- 1500+ participants
- 100+ media coverages

BACKGROUND & RATIONALES

ROLE OF IETD TO ACCELERATE THE TRANSITION

- IETD is designed to be a hub of energy transition knowledge and practices in Indonesia
- Aims to develop an epistemic community and champion that supports the agenda of the energy transition in the nation
- This year, IETD focuses on synergizing strategy to delivering just and orderly energy transitions

SUPPORT INDONESIA'S STRATEGY DEVELOPMENT IN ACHIEVING CLIMATE AMBITIONS TARGETS

- Indonesia's climate ambitions and national industrial development must go hand in hand, so a strategy to create a sustainable economy is essential.
- Consolidation of energy transition in national policy is very important to provide legal certainty and direction for national development.
- Energy transition agenda will have multiple impact for national economic and social community life.

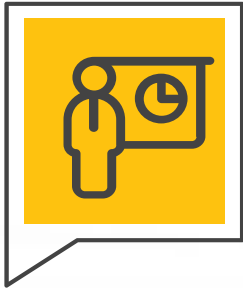

HOW INDONESIA BE A LEADER OF RENEWABLE ENERGY IN THE REGION?

- The country has vary potential renewable energy in large capacity of generation
- Acceleration of renewable energy must be balanced with the development of the domestic renewable energy industry supply chain.
- Bankable listing project is required to showcase either technical and economic feasibility in building the renewable energy to be more competitive rather than fossil fuel.

WHAT'S NEW IN IETD 2024?

RUN IN HYBRID STYLE

We invite most of speakers and moderators to join onsite. 150 seats are provided to onsite participants while hundred more around the world are encouraged to join in our virtual platform

THREE-DAYS EVENT

IETD, in its seventh edition, will be hosted in a 3-days event addressing many topics

ELEVEN SESSIONS

Will be attended by 50 prominent speakers from international and national levels across 11 sessions wrap in various style

IETD 2024 AT GLANCE

Three days full hybrid event

50 national and international prominent speakers and moderators

Monday and Wednesday
4th – 6th November 2024

150+ expected onsite participants
1500+ expected online participants from related stakeholders

Offline Venue The Sultan Hotel, Jakarta
Virtual platform through <https://www.ietd.info/>

1

Deepen understanding of energy transition commitments in the Indonesia new leadership 2024 – 2029.

2

Encouraging the paradigm of accelerating energy transition agenda in just and orderly manners.

3

Identifying current and future complexities in energy sector transformation involving domestic and global factors.

4

As a forum for discussion of various stakeholders in discussing actions, challenges, opportunities, and implementation to achieve zero emission targets by 2060 or earlier

NOTABLE SPEAKERS

Many More

04 November 2024 | 09:00-16:30

Agenda Hari-1

Menyempurnakan Transisi Energi Indonesia yang Adil dan Teratur

09:00–09:35 Event opening and housekeeping - Master of Ceremony

09:35–09:45 Opening Speech **Prof. Bambang Brodjonegoro, Ph.D.** - Chairman of ICEF

09:45–09:55 Opening Speech **Bahlil Lahadalia** - Minister of EMR Indonesia

10:00–10:20 **Keynote Presentation** - The Iceberg of the Energy Transition
Prof. Dr. Benjamin K. Sovacool, Boston University

10:20–10:50 **Keynote Presentation** - Setting Indonesia Energy Transition Priorities
Prabowo Subianto - Indonesian Elected President 2024-2029

10:45–11:30 **Fire Chat** - Energy Transition Priorities in the Next 5 years

Panelist

- Prof. Dr. Eng. Eniya Listiani Dewi** - Director General of New Renewable Energy and Energy Conservation
- Prof. Bambang Brodjonegoro, Ph.D.** - Chairman of ICEF
- Hilmi Panigoro** - President Director, Medco Energi

Moderator **Fabby Tumiwa** - Executive Director of ICEF & IESR

11:30–11:40 Photo Session: Panellist and Indonesia Clean Energy Forum

Press Conference

13:05–14:00 **TED-style delivery** - Energy Transition Point of Views

- Renewable Energy Business **Arsjad Rasjid**, President Director, PT Medco
- Industry Leaders **Shinta W. Kamdani**, Chairwoman of APINDO
- Consumers **Tulus Abadi**, Chairman YLKI
- Youth **Rauf Usman**, Chairperson SRE Indonesia
- Academia **Prof. Dr. Ir. Mochamad Ashari, M.Eng.**, Rector of Institute Sepuluh November 2019-2024
- Worker **Maria Emeninta**, Lead of Research, Education and Training Department, Indonesia Labour Confederation
- Indigenous Community **Rukka Sombolinggi**, Secretary-general of the Aliansi Masyarakat Adat Nasional, Aliansi Masyarakat Adat Nusantara

14:00–14:55 Roundtable Dialogue **Bambang Harymurti** - Member of ICEF

15:15–16:30 **Scene Setting Presentation** - Global Energy Transition Status and Setting the 2030 Goal

Ali Izadi-Najafabadi, Head of APAC at BloombergNEF

Panel discussion - Consolidating Indonesia National Policy to Achieve the Long and Mid-term Goal

Panelist

- Laksmi Dhewanthi** - Vice Minister, Ministry of Environment and Forestry
- Dr. Vivi Yulaswati** - Deputy for Maritime Affairs and Natural Resources, Bappenas
- Dr. Djoko Siswanto** - Chairman, National Energy Council
International Energy Agency

Moderator **Dr. Widhyawan Prawiraatmadja** - Member of ICEF

16:30–18:00 Final Debate Competition

05 November 2024 | 09:00-16:30

Agenda Hari-2

Menjelajahi Risiko dan Kompleksitas Baru dalam Transisi

Seminar Series

09:05–11:40

Moderator Malindo Wardhana - Program Manager Sustainable Energy Transition Indonesia, IESR

❖ **The Changing Geopolitical Landscape of Energy Transition**

Dino Patti Djalal - Founder Foreign Policy Community of Indonesia (FPCI)

❖ **Competitiveness of Carbon Intensive Industries Amidst the Transition**

Isadora Wang - Senior Advisor China Industry, Agora Industry

❖ **Transforming the Role of Utility - Democratization of Energy**

Serge Colle - Global Power & Utilities Sector Leader, EY

❖ **The Greenflation - Anticipating the Implication of the Changing Policy and Energy System**

Hendri Saparini, Ph.D - Founder, CORE

❖ **Preparing the Clean New Emerging Industry Workforce**

Alexander Tsironis - Educational Specialist Sector Group, Asian Development Bank

13:30–15:00

Panel discussion - Shifting Indonesia Economy & Industry Amidst Energy Transition

Panelist Dr. (HC) Burhanuddin Abdullah Harahap - Task Force Prabowo-Gibran

Amalia Adininggar Widyasanti, Ph.D - Deputy for Economic Affairs, Bappenas

Rachmad Pribadi - Chief Executive Officer - PT Pupuk Indonesia (Persero)

Masyita Crystallin, Ph.D, - Head of Sustainable Finance and Policy, Asia Pacific, Systemiq Ltd

Moderator Dr. Suzanty Sitorus - Board of Executives ViriyaENB

15:00–16:30

Panel discussion - Mobilizing finance for early coal retirement

❖ **Unlocking the Indonesia Coal Retirement Roadmap**

Presenter Deon Arinaldo, - Energy Transition Program Manager, IESR

Panelist Reynaldi Hermansjah, - President Director of PT. SMI

Darmawan Prasodjo, Ph.D - Executive Director of PT. PLN

Dr. Edo Mahendra - Chairperson of Satgas TEN

PWC

Moderator Dr. Raden Raditya Wiranegara - Research Manager, IESR

06 November 2024 | 09:00-16:35

Agenda Hari-3

Menyusun Rencana Transisi Energi dan Peluangnya

09:00-11:00

Workshop - Accelerating Green Hydrogen Economy

- ❖ Regulatory Framework for Enabling Green Hydrogen

Andriah Feby Misna - Director of Various New and Renewable Energies, MEMR

- ❖ Green Hydrogen Ecosystem for Industry Decarbonization

Dr. Adhika Widyaparaga - PSE UGM

- ❖ Technological Advancement in Green Hydrogen Production

Ahmad Yani, Director of Operation - Pertamina Geothermal Energy

- ❖ Appointing the Right Role for Green Hydrogen: Case Studies

Dr. Tharinya Supasa - Project Lead, Agora Energiewende

Moderator Erina Mursanti - Green Energy Transition Indonesia Program Manager, IESR

11:00-12:20

Workshop - Establishing Domestic Advantage in Renewable Energy Supply Chain

- ❖ Priorities and Opportunities for Domestic Renewable Energy Supply Chain

Dr. Farid Wijaya - Senior Analyst in Material and Renewable Energy, IESR

- ❖ Closing the Gap between Domestic RE Manufacturing Products with Global Industry

Julio Retana - Team Leader UK Mentari

Faricha Hidayati - Industrial decarbonization Coordinator, IESR

13:30-15:25

Workshop - Producing the Lowest Cost Renewable Energy

- ❖ Identifying the Economic Potential of Renewable Energy in Indonesia

Pintoko Aji - Data and Modeling Group Research Coordinator, IESR

- ❖ Renewable Energy Innovations Trends and Projecting the Renewable Learning Curve (IRENA INSPIRE)

Dr. Binu Parthan - Deputy Director, Country Engagement and Partnerships, IRENA

- ❖ Stimulating Finance and Investment in Clean Energy

Hakimul Batih, Ph.D - Indonesia Program Local Representative, OECD

Moderator Martha Jesica Mendrofa - Research Coordinator for Social, Policy, and Economic, IESR

15:25-16:00

Coffee Break & Stand Up Comedy

16:05-16:20

IETD 2024 Summary and Recommendation

Fabby Tumiwa - Executive Director of ICEF & IESR

16:20-16:30

Closing Speech

Prof. Bambang Brodjonegoro, PhD - Chairman of ICEF

16:30-16:35

IETD Closing - Master of Ceremony

WHO USUALLY ATTEND IETD?

Indonesia Energy Transition Dialogue (IETD) is high-level yet inclusive dialogue which invite multi stakeholder and public. In this seventh edition, IETD will be held in hybrid style to reach more audience around the world. Being awaited annual event, this year IETD brings new ambience to strategize of Indonesia Energy Transition Concept together with Indonesia new leadership.

Leading energy companies and business from all around the world

Key policy and decision makers from international, national and sub-national levels

Academics, professionals, think tanks, and NGOs also be present at the first and second IETDs

Embassies, development partners, and associations are always take part in our discussions and dialogue at previous IETDs

Our events also attended by international and national media

Students and individuals whom interested in the future of energy, innovation, and sustainability are also turn up at our IETDs

There are at least four value propositions that we can offer from IETD 2024: Be a forefront, improve your brand & image, expose your company both at the international and national levels

We make your company a forefront on energy transition issues in Indonesia

FOREFRONT

IMAGE

We improve the image of your brand to be associated with your company support in energy transition

Engage and open opportunities with various segments of participants

**PROMINENT
ENGAGEMENT**

**WORLDWIDE
EXPOSURE**

IETD will be spot for national and international media and participants, brings your brand and action noticeable worldwide

THANK YOU

THE 7th
**INDONESIA ENERGY TRANSITION
DIALOGUE 2024**

04 November 2024
09.30-16.30 WIB
Refining Indonesia's Just & Orderly Energy Transition

05 November 2024
09.00-16.30 WIB
Traversing the Newfound Risks and Complexities of the Transition

06 November 2024
09.00-16.35 WIB
Working Out the Energy Transition Plan and Opportunities

Co-hosted by:
